

#IMPROVINGCAREFORYOU

Evening and weekend GP appointments

East Surrey GP Practices are working together to provide more appointments in the evenings and at weekends at our GP Hubs.

Registered patients can book appointments through their own practice in the usual way during normal opening hours.

*GPs working at the new hubs will have access to your GP medical records with your agreement. You will be asked before any of your information is shared.

* Patients not registered with an East Surrey GP but who need urgent care, should telephone 111
